

Buy a ECODryBlock Heater System

Get Your Choice Of A ECODryBlock Block For **\$49.50***

CG-1991-V-01

Modular and digital dry block heater designed for accurate sample heating, supporting a wide range of applications in Life Science and Environmental laboratories.

ECODryBlock is a modular, digital, and precise dry block heater designed for sample preparation, incubation, DNA denaturation, enzymatic reactions, culture media tests, and COD analysis.

Item Number	Description		Price
CG-1991-V-01	ECODryBlock System	115-230V	\$1,450.00 *
CG-1991-V-24	ECODryBlock System, COD 24	115-230V	\$1,665.00 *
CG-1991-V-04	ECODryBlock System, COD 4	115-230V	\$1,750.00 *

AREC 10 Digital, Ceramic Hot Plate Stirrers

AREC 10 Advance Digital Ceramic Hot Plate Stirrer

State-of-the-art 10x10 inch Ceramic Hot Plate Stirrer, combining powerful performance, advanced safety features, several connectivity options, and enhanced user experience. Designed to offer a large working surface, it ensures precision, efficiency, and uncompromising safety in every experiment.

- Driving Laboratory Innovation Through Advance Heating and Stirring
- Superior Thermoregulation for Maximum Accuracy
- Advanced Stirring Performance for Precise Laboratory Operations
- Easy Processes through Smart Connectivity
- Ensuring Safety for Every Application

CG-1999-10A

Item Number	Description	Price	Sale Price
CG-1999-10A	AREC 10 Advance Digital, 10in x 10in Ceramic Top, Hot Plate Stirrer, with Probe, Ermes Cloud/WiFi Enabled, 115V/60Hz	\$1,894.00	\$1,704.60 *

AREC 10 Digital Ceramic Hot Plate Stirrer

The AREC 10 Digital, Ceramic Hot Plate Stirrers offer precise temperature control, advanced stirring and heating performance, improved safety features, and ease of use. The 10-inch square ceramic plate is highly resistant and ideal for laboratories requiring a spacious working surface.

- Precise thermoregulation
- Powerful stirring
- Safe and resistant
- Precise temperature control for maximum reproducibility
- Brushless motor for consistent stirring performance
- Superior resistance & safety for a large surface hot plate
- User-friendly interface for effortless monitoring
